Upgrade to a comprehensive report detailing foods, nutrients and targeted supportive measures.

Tour & Tutorial

LOGIN

Begin by logging into your account at www.dermagrid.com

- Tablet
- Smartphone
- Computer

The screenshot shows a mobile device displaying the Dermagrid website. At the top, there is a navigation bar with links for Login, Home, About, Subscribe, Members, and Contact. The main content area features a section titled "FACE-MAPPING TECHNOLOGY". Below this title, there is text explaining the Dermal Smart-Logic platform's ability to scan facial images for skin characteristics related to internal and external causes. It also mentions that the application generates protocols for optimal support. A blue "WATCH VIDEO" button is located below this text. To the right of the text, there is a graphic illustrating the face-mapping technology. It shows a woman's face on a computer monitor, a tablet, and a smartphone, all connected by lines indicating the transfer of data or images. The Dermagrid logo is visible in the top right corner of the website's header.

DermaGRID

FACE-MAPPING TECHNOLOGY

Using our Dermal Smart-Logic platform, facial images can be scanned to seek out key skin characteristics related to internal and external causations.

In addition, our application will generate protocols that highlight nutrients, foods and products for optimal support.

ACCESS

Enter your username and
password to LOGIN.

START NEW

Use this option to scan a new image.

SEE SCANS

Use this option to review reports from previous scans.

INTAKE FORM

Enter basic information regarding your client.

NOTES:

Demographics are important for the cross-comparative analysis and stats provided on the pro-report. (Client email is optional.)

The image shows a smartphone displaying a mobile application interface for 'DermaGRID'. The app has a white background with a dark border. At the top right is a small circular icon with a square inside. The title 'DermaGRID' is at the top. Below it is a vertical list of input fields with labels: 'Name', 'Client Email', 'Age', 'Weight', 'Height', 'Area of Scan', and 'Gender'. The 'Gender' field has a dropdown arrow. At the bottom is a blue button labeled 'SAVE & CONTINUE'.

COACHING

If an image is rejected, follow the instructions to taking a quality image

Retake Image will allow you to submit another image.

RETRY

GENERATE

The scanned image is
illustrated once verified.
Click to generate the
dermal outline.

PROTOCOL

This section will highlight the overall wellness direction most supportive to the client.

ESSENTIALS

This section will highlight the key essential nutrients identified as optimally supportive.

Referenced Protocol

Cleanse

Identified Essentials

Vitamin B3 (niacin) x2

Vitamin E x1

Selenium x1

Glutathione x4

Determined Products

EMPHASIS

The higher the number next to each nutrient, the more emphasis of supportive properties.

PRODUCTS

The best-matched products for your client are listed based on the generated data.

NOTES:

Products are selected from discretionary companies within your account. You may choose 1 or 2 companies to add into your database. To revise these companies, please contact our customer support.

Key areas of focus are emphasized within this section.

HIGHLIGHTER

A smartphone screen displays a user interface for a health and wellness app. At the top, there is a small portrait of a person with blonde hair. Below the portrait, the text "Referenced Protocol" is followed by the word "Cleanse". Under "Identified Essentials", there is a list of nutrients: Vitamin B3 (niacin) x2, Vitamin E x1, Selenium x1, and Glutathione x4. A section titled "Determined Products" lists "Liver Cleanse Plus" and "Fiber Max". Below that, under "GRID Highlighter", are the words "Liver" and "Heavy Metals". A final section, "GRID Analyzer", contains a blue button labeled "Purchase GRID Analysis".

DROPDOWNS

Click on identified elements for more information.

PRO REPORT

For a small fee, upgrade to a quantitative pro report. Allow up to ONE business day for this in-depth image scanning process to generate a report.
